Three Boys Arrested Admit Robbing the Store of E. E. Hileman

LOCK NO. 4 COUNCIL HOLDS A MEETING

Session Last Night In the Borough Building, North Charleroi, And Is Devoted Principally to the Passing of Ordinances

"CLEAN-UP" TO BE IN MAY

Body Fixes Date From May 5 to May 10, And Citizens Are Asked to Cooperate With The Health Officer In Its Proper Observance

North Charleroi Borough council met last night in the council chamber of the Borough building. Members present were Messrs. Doerzbacher, Gaskill, Wildman, Strausser, and Wolfe. Members absent, Messrs. Plasman and Simpson.

The regular order of business was transacted in the usual manner. Monthly bills were ordered paid, and reports of the various committees heard and acted upon. Under the latter head, the ordinance committee ratified the reading of several ordinances for the third and final reading, the same being adopted by unanimous vote. Among which were an ordinance granting to the Bell Telephone Company certain rights and privileges for the maintenance of its system in and through the borough, which entail a number of concessions, principal among which is free telephone service for the Borough council and the various officers of the borough.

An ordinance was passed granting the United States government through its proper officials the right to erect, operate, and maintain an overhead crane across Fifth street, connecting its structural iron plant with its machine shops and other manufacturing accessories, which will greatly aid the work of constructing many heavy pieces of machinery used on the river locks.

An ordinance relative to connecting cesspools and privy vaults with sewers, amending a former ordinance, was passed. This ordinance governs the charges and the way and manner in which the labor incident must be done.

The board of health submitted its regular monthly report, which embodied principally, a request that the borough council cooperate with and aid the health department in "Clean-Up Week" which has been set for May 5 to 10 inclusive. The street committee was authorized to act in conjunction with the Health Officer in complying with this order. The regular garbage collector of the borough will be employed to collect and dispose of all garbage, tin-cans, and rubbish during the entire week, and he will be under the supervision of the health officer of the borough. All good citizens of the town are requested to have their refuse matter collected and conveniently placed, in order that no unnecessary delay be engendered.

The borough auditors, Messrs. Clutter, Stephenson, and Roberts submitted their report, and the same was ordered posted for public inspection.

The reports of Burgess P. E. Franks and Tax Collector C. E. Clegg were submitted, and met with council's approval.

Under the head of complaints and grievances, some half-dozen citizens were present, and presented their petitions for street improvements, inclusive of sidewalks, crossings, and sewers—those who are now building or contemplate building homes, all of which is evidence of marked industry in the borough and augurs well for the future. It is estimated that three are in the borough 25 good buildings in the course of construction. All parties were assured that their requests would be granted as soon as weather and labor conditions permit.

BENTLEYVILLE TO HAVE NEW PAPER

The Bentleyville Leader, with C. R. McLain, a former printer, but now a resident [illegible], make its appearance this week.

The Leader will be issued at the onset as a seven-column quarto, and Bentleyville, as a growing and important town, will doubtless have its interests well represented by the Leader. It is the purpose of Mr. McLain to give the people of Bentleyville an organ which will be truly representative of the place—a reflex as it were of the business interests and the news features of the town properly typified through the new venture, and in his undertaking the gentleman has the best wishes of the Mail in common with all who have the honor of the gentleman's acquaintance.

Man Don't Like Uncle Sam-- Papers Denied

Belonging to an organization, a branch of which is said to be prevalent in Charleroi, Andrew Harmison, a native of England, in Judge Erwin Cummins' court room yesterday during final citizenship papers, declared that he favored the overthrow of the American government. He did not advocate doing it by bloodshed, but follows the idea of doing it through the people. He is a supporter of the present Russian form of government.

He declared that Lenin was one of the greatest men that ever lived, and that he was a firm believer in the Trotsky-Lenin form of government. His statement confirmed some knowledge the court and naturalization board had that this man is a leader among those who are said to be disseminating Bolshevism in Canonsburg and Houston sections.

His petition was quickly dismissed and he and his witnesses left the court room. It was one of the most sensational incidents that has come before the court. It stirred the red

(Continued on page four)

TRIO INVOLVED IN THEFTS AT MON CITY

Howard Hillman of Monongahela, John Mastranelli of Bentleyville, and Robert Collier, who claims Steubenville, O., as his home, were arrested [illegible] the grandmother of Hillman, Second street, Monongahela, by Constable Den Wilson of Monongahela. At the time of the arrest of the trio Mastranelli and Collier were hiding in the cellar. The young men are said to have admitted entering the store of E. E. Hileman, Fallowfield avenue and First street, this place, and purloining goods as recorded in the Mail of yesterday. The young men, all of whom are 18 years old, are being held in the Monongahela lockup pending a preliminary hearing.

It is charged that the three have robbed homes, four in number, and a store in Monongahela, and they are wanted in that city to answer to charges to be preferred in the individual and collective cases.

It is said that Hillman, Mastranelli and Collier "pulled off a job" at Bellaire, O., three weeks ago, by robbing a store in that city. They are also accused of the robbery of a store in West Virginia. While in the state of Ohio, they met Collier, who returned, it is said, with them, and has been involved with them in the robberies as stated.

'Citizen' Claims Towner Makes False Reports

Charleroi, Pa., April 8, 1924.

Dear Editor:

Being a citizen and voter in Charleroi, I am interested in everything [illegible] to the credit of our town, and, while I am not particularly interested in the success of any of the candidates for the Legislature, I, like all good citizens of this town, am anxious that the truth be told when any one speaks of Charleroi.

Whether or not it was the intention of one of the candidates to deceive the voters by falsifying through his advertising that he is the only candidate outside of Charleroi for the Legislature, he surely ought to know that he was taking a very deceptive advantage of all the other candidates.

Politicians are accused at times of being good prevaricators, but seldom will they deliberately state a falsehood over their signature, let alone advertise it.

The voters have little use for a candidate who will resort to false statements, and in justice to the voters and candidates, "Candidate Towner" should make a public apology for he knows that Charleroi has only two candidates, Van Voorhis and Oates.

"CITIZEN."

DEAD FOUR DAYS; FOUND IN GARAGE

Lifeless Body of Eugene Hirsch, 45 Years Old, Wellknown Monongahela Carpenter, Is Found By His Wife And Children

IN SEAT OF AUTOMOBILE

Belief of Authorities That Man Committed Suicide—Cause of Death Enveloped In Mystery And May Be Disclosed At the Inquest to Be Conducted

The lifeless body of Eugene Hirsch, 45 years old, well known carpenter of Monongahela, was found in the seat of his automobile in the garage at his home in Markell avenue, that city, yesterday afternoon, the discovery being made by Mrs. Hirsch and her two children. It is believed that the passing of Hirsch came on Friday of last week, and his death is involved in mystery, albeit the authorities believe that the man committed suicide, but no marks of any kind could be found on the body.

Coroner William Greenlee announced that an inquest will be conducted tomorrow morning at 10 o'clock at the mortuary of Deputy Coroner L. M. Frye to determine the actual cause of death.

Mrs. Hirsch, in a statement made to Chief of Police S. S. Burnsworth stated that her husband had been discontented for the last two years and that on Friday of last week the climax was reached when he threatened to leave their home. She believed that he had carried out his threat until making the grewsome find late yesterday afternoon.

In her story, Mrs. Hirsch said that she had not been to the garage since last Friday and that she had been prompted to go there yesterday to learn whether or not her husband had driven away in the automobile. She was forced to break a window, she said, before she could look into the garage and see the machine. Mrs. Hirsch was accompanied by her two children. The latter notified Chief of Police Burnsworth who went at once to make an investigation.

Chief of Police Burnsworth had to force an entrance into the garage, the door having been locked on the inside as well as the windows.

Mrs. Hirsch said the last time she saw her husband alive was late last Friday afternoon when he drove away in the machine and later returned. Officers believe that he made this trip to purchase a poison to take his own life.

On last Friday morning Hirsch visited the First National bank of Monongahela and withdrew all his savings. This sum said to amount to several hundreds of dollars, was found on his person.

The Hirsch family has resided in Monongahela for a number of years. Always a steady worker, Hirsch had prospered, owning his own property in Markell avenue. He leaves his wife and five children.

OWNER RECEIVES STOLEN CAR

The car of Thomas A. Copeland of Monessen, taken from in front of the [illegible] Sunday night, was found yesterday abandoned on a hillside in Monessen, and returned to its owner.

The car is said to be valued at about $1500.

OPENING OF BASEBALL SEASON.

The baseball season will soon be here and we are displaying a wonderful line of Spalding Uniforms. Special prices to teams. Might's Book Store. 258t2*

Secretary of Highways Paul D. Wright at Harrisburg yesterday let the contract for the construction of 33,913 feet of highway in Amwell township to the Donora Construction company for $402,258.

The project included in this contract is what is known as route 325, being the Washington-Waynesburg road, beginning at Harts Mill and extending through Amity to the Greene county line.

The contract for a section of the road in Greene county has already been let and when these roads are completed which will be this fall the improved highway from Washington to Waynesburg will be a reality.

The surveys have long since been completed and it is expected that the work will be begun as soon as the weather permits and rushed to speedy completion. It is a part of the state system of primary highways connecting county seats.

EQUITY COURT TO CONVENE TODAY

Equity court was to be convened this morning at 10 o'clock. Before Judge Cummins the first case to be called is taht of John Okorn, et ux against Sarah M. Hancock. Before Judge Brownson will be taken up the case of Ben Bender against Samuel Sidle, a partnership dispute from Bentleyville.

Through an error the suit of David Major Bell, of Canonsburg, against Jeanne Russell Bell, his divorced wife exceptions to the court's decree in the matter of the disposition of the former Bell home, at Canonsburg, was put on the equity list instead of the argument list. It had been expected to have this argued before the court, both judges sitting, this morning. However it has been put over until the end of the equity list.

Thomas George Davis, Jr., of Union township, has filed a suit for divorce against Dorothy Black Davis, in which he charges her with desertion. They were married at Wellsburg, W. Va., on February 4, 1921.

In the divorce suit of Lucy Weriases against Stanley Weriases cruel and barbarous treatment is alleged. They were married March 10, 1898. Marie Huart, of Venice, also charges her husband, Nester Huart, with mistreatment. They were married February 6, 1923.

[illegible] suit of Frank Merice against Franciska Merice, of Daisytown, the testimony has been filed in which a divorce is recommended. Desertion is the ground alleged.

In the suit of Lyman H. McElhany against Corinne McElhany the respondent has filed a petition for $150 counsel fees and for alimony, pending the disposition of the suit.

If you want it, a Mail Classified Ad. will help you get it.

FOLK STARTLED BY 3 SLIDES

Three dangerous landslides partially covered the Elizabeth-Monongahela pike, wellknown as the "Hanging Boulevard," opposite the Monongahela river at Monongahela early yesterday morning. Additional slides seemed imminent. The first slide occurred about midnight, while others not so large as the first, occurred at intervals of a few days. Traffic yesterday was continuing along the road as usual, although trees and debris seemed about to fall upon the road at any time. Telephone poles are holding back smaller impending slides. Many poles have been thrust out of line by the heavy pressure of sliding earth and rock and the damage will likely be large in this respect. Continuing down the river from a point below the bridge to Elkhorn, earth from the hillside continues to slide down each spring and during warm periods in the winter.

Large sums have been spent since the building of the "Hanging Boulevard" in cleaning up these slides, repairing the road, and in the construction of new sustaining walls.

BIG MAN IS ACCUSED OF BEING IN PLOT

Rome, April 8.—(United Press).—A former minister of Albania is declared to have been involved in the plot that resulted in the murder of two American business men on the Tirana-Scutari highway Sunday. The purpose is said to have been to embarrass Albania in its relations with the League of Nations on the subject of boundaries.

The Albania legation here said martial law had been declared and an inquiry opened.

The Americans — Robert Lewis Coleman of San Francisco and George B. DeLong, of New York—were at first supposed to have been victims of highwaymen.

Two Killed And Six Hurt When Car Jumps The Tracks

Vernon, Pa., April 8—(United Press)—Two persons were killed and six persons injured when a street car ran wild down Vernon Hill, jumped the tracks and crashed into a garage early today.

The dead are:

Charles W. Bersel, motorman of the car.

William Isherwood, 60, a passenger.

The trolley according to witnesses of the accident, started down the hill and suddenly the brakes worked loose. The motorman attempted to get the car under control but it gained speed.

At a curve near the bottom of the hill the street car left the rails and shot through the front of the garage.

Isherwood was killed instantly. Bersel was picked up unconscious and rushed to Columbia hospital, Wilkinsburg, where he died.

The seriously injured passengers were taken to Columbia hospital and those who received minor injuries were given first aid treatment at the office of a nearby physician.

Eight automobiles in the garage were badly damaged when the trolley crashed through them.

ACCIDENT LEADS TO DISCOVERY OF MOONSHINE

Pittsburgh, April 8. — (United Press).—An accident led a Penn avenue policeman to the discovery of a moonshine whisky establishment and 275 gallons of the liquor today.

While making his rounds, Officer Richard Connors stepped on a cellar door and went crashing through to the steps below. When attempting to advise the occupants of the house of the condition of the door, he found the house deserted. On closer inspection he found a 150-gallon still in operation, and 100 gallon and a 50 gallon still in operating condition.

COURT PAROLES THE FATHER OF ELEVEN

Judge James A. Brownson, at Washington yesterday, in passing sentence in a case where a man was charged with the unlawful manufacture of whisky or liquor, showed leniency, and there were facts presented to the court, vouched for, which were good grounds for the leniency. The defendant was George Poshnikov of Slovan, now working at Empire, O., the father of 11 children, and the mother at present, ill. The defendant pleaded guilty last November, but on account of his wife being in a delicate condition at that time, and they having nine children, sentence was suspended at that time. Since then two children have been born to them, twins, a son and a daughter. Not getting steady work in the mines about Slovan, the defendant went to Ohio, where he is now employed in a pottery. He has steady work, makes $4.60 a day, but it was stated to the court that if he were given a jail sentence the man would lose his position, and the county would have to take care of his family.

There was no evidence of sale of any liquor and it was stated that it was being made in anticipation of a christening.

Attorney Clyde S. Pipes made an appeal for the defendant and stated the facts. The district attorney did not oppose, by reason of the unusual circumstances. Constable J. E. Adams, the prosecutor and Squire Hen-

(Continued on Page Two)

MANSE MORTGAGE HAS BEEN SATISFIED

First Presbyterians of Charleroi and vicinity—all those who combine and compose the laity and congregation of the First Presbyterian church held an inspirational and felicitous meeting at the church last night—the annual congregational session of the society. There was a large representation of the church society, ladies and gentlemen present. In the reports of church officials and various organizations of the church, among the most interesting and encouraging features, was the news given that the mortgage on the manse, situated at 411 Meadow avenue, had been satisfied, albeit the mortgage will be kept for record, and not formally burned, as is the usual in such cases.

It was voted unanimously, that the pastor of the church, the Rev. Robert J. Shields, be given an increase in salary in the sum of $500 per annum.

Otto W. Asp was re-elected as a trustee for a period of three years, and Charles Bateman and F. [illegible] were re-elected as auditors.

Pleasant features were the social intercourse, the air being pungent with good fellowship, and the refreshments served by the ladies of the [illegible].

DETAILS OF THE EXPERTS' REPORTS COMING OUT

Paris, April 8—(United Press)—Details of the experts' reports are leaking out as they pass through more and more hands in translation, printing and proof-reading.

French sources today handed out what purported to be an authoritative resume of the Dawes committee's report. It conforms to the outline carried in United Press dispatches yesterday, namely, that a gold bank of omission will be established, an international loan granted Germany and control of the railroads assumed, and adds hitherto unpublished details.

"Without interfering with military occupation of the Ruhr," the authoritative French version says "the economic unity of Germany must be restored.

"The Ruhr customs and railways must be returned to Germany, but allied representatives will act as overseers in order to safeguard the security of the troops.

"Germany's reparations payments the first year by means of a foreign loan of 800,000,000 plus 200,000,000 from a transport tax.

"Twelve hundred millions will be paid the second and third years, 1,500,000,000 the fourth year, 2,400,000,000 the fifth, and in a rising ratio thereafter, according to Germany's national prosperity.

The entire German Railway system is to be conceded for fifty years to a company with a capital of 26,000,000,000 gold marks, of which two billion marks in preferred stock will be sold."

The French version also includes a levy on German industries which profited by annihilation of the mark.

COURT PAROLES THE FATHER OF ELEVEN

(Continued from First Page)

ry Tennyson of Slovan, both of whom knew the man, verified the fact as the circumstances surrounding the man and his family.

The defendant was allowed to go on probation, upon payment of costs, these to be paid in small installments to the probation officer. Sentence was suspended.

When Mary Esma, of Slovan, appeared in court and admitted she was guilty of the manufacture of liquor taking all the blame, and exonerating her husband, Judge Cummins refused to pass sentence. The court stated it appeared that some one was trying to double cross the court and district attorney, with the idea of getting both the woman and her husband off. The husband was not in court, but had, with his wife, been jointly charged with the offense. The woman is the mother of nine children and it was apparent that she was about to put up that plea for leniency, in addition to trying to assume all the blame for the liquor making. Her husband will have to appear with her the next time she comes up.

Pete Bercosk of East Marianne, who, his counsel stated, had never been in trouble before and who bore a good reputation in the community where he lived, was caught enjoying a drink out of a quart bottle of moonshine. He had not made the liquor, but had purchased six quarts of it. He did not get all of one quart disposed of before he was caught. Judge Cummins remarked that his arrest probably saved his life. He was fined $100 and costs and sentenced to jail for three months. If he pays the fine and costs the imprisonment will be reduced to one month.

Steve Crail, brother-in-law of Mrs. Esma, admitted manufacturing liquor at Slovan. He was fined $250 and costs and sentenced to the workhouse for four months. If the fine and costs are paid the sentence will be reduced to two months.

Rose Supink of Canonsburg, found to be selling a little liquor, was allowed to go on probation. She is a widow and has five children. Since her arrest no liquor has ever been found at her place and she seems, it was stated, determined to keep away from it. Her first husband was killed a few years ago and a second one deserted her.

Working Conditions Are Reported As Being Improved In State

Harrisburg, April 8—(United Press)—General improvement in the demand for all classes of workers in nearly every section of Pennsylvania was shown today in the semi-monthly report of the department of labor and industry.

Most places, however, are seeking the "substantial type of worker who will make his home in the community where he is employed."

From all parts of the state, the report showed, came reports that the outlook for building operations was more promising now than in the late winter. With warmer weather and prospect of definite fixing of labor costs many construction contracts were being offered for bids.

However, the report demonstrated clearly that many contractors were unwilling to go ahead with work until weather conditions were settled, [illegible] and some recent cost increases.

The demand for common labor showed an uniform increase in the two weeks period just past. The supply in all cases was equal to the demand and in most sections there was still a surplus of workers.

The demand for [illegible] laborers has reached such proportions that there exists a serious shortage of capable help. In the central Pennsylvania district many persons were reported selling their farms and going into other lines of work because of inability to secure competent workers.

The northwestern section reported that farm wages were higher than last year and more nearly equal to wages paid for city work.

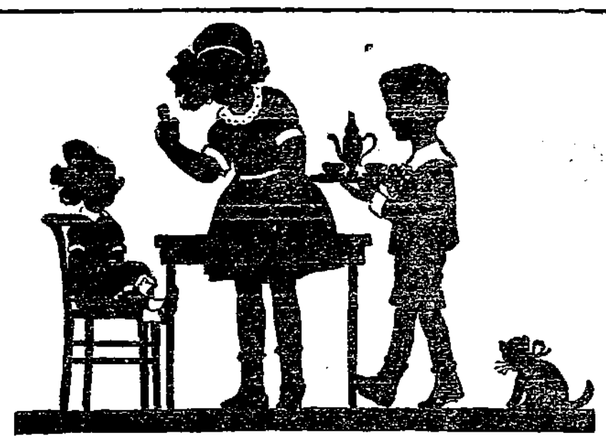
DAY AND NIGHT SERVICE

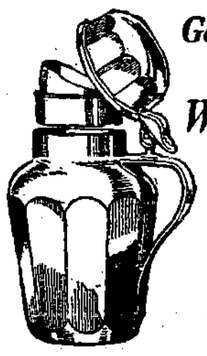


Playing House

IT'S like *playing* house to a mother whose children are robust and healthy. She escapes the greatest worries of parenthood. Her thriving youngsters are a joy.

Nourishing, energizing food is largely the secret of a child's ruddy health. And every mother should know the elements in food which create energy and build strength. The food element, *Dextrose,* for example, is one of Nature's most important gifts. It supplies the "fuel" of the body and puts vitality into the blood and tissue cells.

A large percentage of *Dextrose* is contained in delicious Karo. It is *this* that makes Karo such a wonderful food for growing children. Serve them all the Karo they want. Both Blue Label and Red Label Karo are equally valuable in genuine nutritive elements.



Get this Beautiful Aluminum Syrup Pitcher Worth $1.00 for 40c

and 5 Karo Labels

Buy 5 cans of Karo from your grocer, send labels to address above with 40c and you will receive the Syrup Pitcher by parcel post.

The Mail Classified Columns Are Full of Opportunities

Flea Critics Terrify, Says Samuel C. Blythe

The flea government critic jumps about and asserts its flea view that unless we reform our state to meet with the flea momentary flea view the state must perish, says Samuel C. Blythe in McNaught's Monthly.

The flea religious critic has entire moral disintegration just around the corner unless flea precepts are heeded. The flea literary critic consigns us to illiteracy unless our literature conforms to his flea standard. The flea conserver of our morals has us all sunk in hades unless his standards are observed.

And so with the flea political critic, the flea economic critic, the flea social critic, so with all the fleas. Adopt the flea view or be eternally doomed and damned. No flea was ever wrong. In fleadom there is salvation.

Curiously enough, we allow the fleas to annoy us. The idea of taking a flea seriously is preposterous, but we do take them seriously. Thus showing one of two things: Either we are too thin-skinned for our habitat, or we have lost our sense of proportion.

For example, when an English flea, say, comes over and bites at us, we shrink from his bitings as if that particular flea was a saber-toothed tiger instead of the flea he is. When a foreign flea invades us we hurry out our defenses instead of pointing out that a [illegible] our domestic fleas. We, the most powerful nation in the world, squirm and shiver before our fleas instead of cracking them on our national thumbnail. The fleas have us terrified. We fear their fleabotomy.

Merely Signing Names Business of One Firm

There is a firm doing business in the heart of the financial district of New York city which the high officials of many banks and large corporations would sadly miss should it suspend operations. What it supplies in the way of automatic assistance in lifting the burden of over and over again writing the "John Hancock" of this and that and the other official upon checks, stock certificates or bonds makes possible a saving of time that sends innumerable desk weary business men to their needed daily recreation upon the golf links, yachts and motor boats or in summer to the baseball parks in time for the first inning, says a New York letter to the Philadelphia Public Ledger.

Because of the peculiarly confidential relationships existing with customers, the firm is not after publicity. Nevertheless, the fame of the institution has spread until it is a common thing in Wall street to hear one of the officials say to another: "I sent those debentures over to be signed and expect them back very soon now."

The machines that perform the work have a capacity for 20 signatures at a time. Whatever has to be signed in duplicate is arranged by trained clerks.

Choice of Sacrifice

"Mamma," said little Elsie, "I do wish I had some money to give you for Christmas dinners for poor children."

Her mother, wishing to teach her the lesson of self-sacrifice, said: "Very well, dear; if you would like to go without sugar for a week I'll give you the money instead, and then you will have some."

The little one considered solemnly for a moment and then said: "Must it be sugar, ma?"

"Why, no, darling, not necessarily. What would you like to do without?"

"Soap, mamma," was Elsie's answer. —Boston Transcript.

Really Near-Sighted

A man who was very near-sighted went to have his eyes tested. After asking him to repeat the letters on the test card without success, the specialist grew impatient and left the room.

Five minutes later he returned with the lid from a dustbin. He put it near the near-sighted man and said: "Here, can you see this?"

"Yes," said the man.

"What is it?" asked the specialist.

"Well, it's either a half dollar or a quarter," was the unexpected reply.

King Solomon's Reservoirs.

Two of the reservoirs built by King Solomon have been cleaned out, and are being used to supply Jerusalem with fresh water by means of an aqueduct which passed through Bethlehem. The masonry work done by the great Hebrew king's men has proved to be very leaky, which is little wonder, considering the length of time which has elapsed since the original construction, and money has to be spent right along to keep it in repair.

Popular Praise.

Money rewards, no matter how large, do not seem to get public duties half so well performed as popular praise.

Education in Denmark.

Denmark's educational system is so perfect and popular that throughout the entire country there is not one illiterate family.

Viewpoints Differ.

Youth, looking at the picture of a palm grove, says: "What a beautiful grove." Middle-age, looking at it, says: "How hot it must be there."

World's Greatest Rail Center.

In the course of 24 hours, 1,280 passenger trains bearing an army of 192,000 passengers enter and leave Chicago, the terminus of 39 lines.

Yes, How About It?

Is animal instinct always reliable? How about a woodpecker tapping on a telegraph pole?

What If He Was Cross-Eyed?

Hank—"Perkins owns land as far as he can see." Crank—"Yes, but Perkins is terrible nearsighted."

Poisonous Snakes Are Pets of Zoo Keeper

At Port Elizabeth, South Africa, attached to the natural history museum and aviary, is a large "snake garden," where poisonous reptiles live in perfect freedom, among their natural surroundings, says the New York World. The garden is, of course, cut off from the rest of the world by a concrete wall.

Its keeper is a negro who has worked in the snake garden from the days of his childhood and has actually succeeded in building up a real friendship with his charges. Protected only by gauntlet gloves and leather puttees, with his other clothing merely the regulation uniform of the museum, he fearlessly enters the inclosure and freely handles his pets.

When one considers that the majority of the snakes in the garden are of the most deadly varieties—the African cobra, the puff-adder and the fer-de-lance among others—one would think twice before offering to swap jobs with the keeper of the reptile house.

Poisonous snakes are popularly believed to be untamable, but the negro keeper at Port Elizabeth seems to prove that, if not actually affectionate, they can be persuaded by kindness to tolerate human companionship.

The snakes in the Port Elizabeth garden are not used for display purposes only. Their venom, extracted, is used in the preparation of serums and antidotes for snake-bite.

Auto Driving Making Pigeon-Toed People

As a result of continual automobile driving, Americans are becoming pigeon-toed, according to the statement of Dr. Carl Hunt of New York city, after extensive research to determine the cause of a marked tendency to "toe in" on the part of a large percentage of the population in large cities. Complaints of pains in the right foot, which are becoming common, also are attributed by him to the same cause.

"Automobile drivers are developing a new form of foot trouble that in many cases becomes actual deformity," says Doctor Hunt. "Ever since the advent of the foot accelerator, my car-driving patients, in ever increasing numbers, have complained of pains in the outer side of the middle third of the right foot, particularly when walking. In most cases I have found that with correction of the position of the foot on the accelerator, manual manipulations, simple exercises, and properly fitting shoes, the trouble has disappeared."—Popular Mechanics Magazine.

Bug That Stabs Potato Bug

Against the devastating potato bug, the United States Department of Agriculture is marshaling an army of enemy soldier bugs, popularly known as "stink bugs."

Every time a potato parasite clashes with one of these deadly antagonists, potato plants are just one bug safer. For the soldier bug usually wins. Advancing to the attack, he jabs a spear-like beak into a soft spot in his prey's armor. Barbs at the tips of the jaws keep the spear inserted. The doomed potato bug at first feigns death, then begins a frantic scrambling over obstacles to shake off its assailant. Exhaustion finally leaves the potato bug at the mercy of the soldier bug's appetite, which sates itself on the blood and juices of the victim.—Popular Mechanics.

Mammals of California

There are 2,000,000,000 mammals in California. Half of these are burrowing rodents, such as ground squirrels, kangaroo rats and gophers, which give farmers much trouble. Dr. Joseph Grinnell of the University of California, however, has a good word to say for gophers and such. Fossils show that they have been in existence at least 200,000 years and he has figured out on one tract of land that in that time gophers have given the soil the equivalent to 8,400 plowings to a depth of six inches. It is all right to keep them off artificially cultivated land but in other areas, the plowing and fertilization furnished by them is invaluable.

Why Bread Becomes Stale

Dr. Katz, a Dutch inventor, has been trying to discover what makes bread grow stale. He has found, it is reported, that low temperature is the chief cause. Bread kept at 140 degrees Fahrenheit was quite fresh at the end of 48 hours, but when the temperature was reduced to 122 degrees the bread began to grow stale and continued to increase in staleness down to about three degrees below the freezing point. Beyond that staleness grew less until at the temperature of liquid air the bread had again become perfectly fresh. It is suggested that bread can be kept fresh by placing it in a fireless cooker immediately after it is removed from the oven.

More or Less Vanity and Vexation.

When goods increase they are increased that eat them, and what good is there to the owners thereof, saving the beholding of them with their eyes? —Ecclesiastes.

Actors' Superstition.

A widespread superstition in the theatrical profession is the belief that it is lucky to take the same route each night to the theater. To vary it is to invite misfortune.

Most Costly Tomb.

Probably the most costly tomb in existence is that which was erected to the memory of Mahomet. The diamonds and rubies used in the decorations are worth $15,000,000.

Tests Pheasants' Efficiency.

The reputed earthquake warning efficiency of pheasants, which are known to be peculiarly sensitive to feeble tremors, is being tested by an eminent seismologist of Japan.

THE TAX MEASURE.

The obstructionists in Congress made two discoveries this week; the forst being that the so-called propaganda in favor of the Mellon tax bill was not propaganda at all but an expression on the part of the people who are with PresidentCoolidge in wanting Congress to get down to work and pass a tax measure that will reduce taxes; the second was that the plan to oust Secretary Mellon from the cabinet was loaded with dynamite.

In regard to the first discovery the lawmakers have been receiving word [illegible] stood behind the President in his demand for action; it was propaganda, but the propaganda was from Mr. and Mrs. Taxpayer who had become tired of petty politics as played by the minority for the past four months. If a few more thousand citizens, irrespective of what their political faith may be, send on letters the chances are that they will get a tax reduction measure passed this session and one that will carry with it Coolidge's demand for a 25 per cent reduction for the 1923 taxes, just a few more letters will do it.

Senator Robinson, of Arkansas, minority leader, has seen the handwriting on the wall and disavowed any part in his democratic colleagues plan to harpoon Mellon. It does not matter whether one likes the Secretary of the Treasury or not everyone will have to acknowledge that under his skillful guidance the great national debt has been reduced about $4,000,000,000 and that is the thing that the people want.

If the minority are sincere in their efforts to aid the people of the nation they will get squarely back of the President and put his measures through. President Coolidge is stronger today than he was a month ago for the voters realize he has been fighting their battle and fighting against heavy odds. His appointment of Harlan F. Stone, dean of Columbia University is another evidence of the president's firm desire to act for the best interests of the people instead of playing politics by selecting some man who might carry some votes with him. Those in Washington are more than ever impressed with the similiarity between Coolidge and Lincoln's method of working, namely, direct and honest action for the benefit of the nation as a whole.

WHY BIG SUNDAY PAPERS.

The attitude of the hard-worked and tired man toward the bulging and plethoric Sunday newspaper of large cities is pointedly expressed by correspondent of the New York Times, who wonders how much of the Sunday issue of the journal famed for "all the news that's fit to print" is really fit to read and if there ever was a man who read it all, adding: "Have you any record of any such person? And if he or she does exist, why did they read it and for what purpose? Who could read it all, anyway? Did you ever think of it—the mass of material packed in that Sunday paper? Where do you get it from, who writes it, and in the nam e of the prophet, 'what's the use'?"

In response the Times jests at the expense of the uncommon grievance of a man who thinks he is getting too much for his money, but indirectly admits that to read the whole of its Sunday issue is beyond human power, adding: "The Times' effort is to give as many classes of people as possible what each of them does want to read; and it is well aware that doing this necessitates the printing of much that will not appeal to all."

The Times admits "the number of advertisements" but submits that their presence renders possible "great expenditures for news." This is true, but it is also true that advertisers' payment for costly space "next to reading matter" results in multiplied column of the latter which otherwise might be spared. However, readers are free to pick and choose, and even if they only glance through the headings and look through the photographic section they may be said to get the worth of their money.

If you have more room in your home than you need, a Mail Classified Ad. will rent it for you, quickly.

Your lawn needs doctoring. Use plant lime and our special Golf-links fertilizer. We will prescribe the amount needed. R. C. Mountser, 314 McKean avenue. 253tf

THE OFFICE CAT

Did you ever watch the transition of a tadpole into a frog? Try it some and you will know more about the world.

Household Hint: Cellars are being used most for reception rooms this season.

Friends are too often people who spend the money they owe you buying flowers at your funeral.

No, a washing-machine is no new fangled scrubbing brush.

BIRDS OF A DIFFERENT FEATHER.

From the topmost twig of a towering tree
A hermit thrush poured melody;
While, perched on a dead limb far below,
Discordantly cawed a cynical crow.

A traveller, charmed by the vesper song,
Of the woodland chorister, tarried long,
But anathemas hurled at the carrion bird,
Who voiced but evil and would be heard.

Now, both birds sat on the self-same tree—
Drew the blessings of nature in like degree—
But the one gave thanks with each singing breath,
While the other grumbled and croaked till death.

So ever the wood thrush' liquid lay
Brings peace to the heart at the close of day;
While the clamor of crow leaves the spirit numb,
And fearful of "things in the night" to come.

O'Envoi: If you can't carol, don't croak.

A woman can endure anything from a man but tenderness.

It's pretty hard for a fellow to throw much fervor into a kiss these days, when he's wondering all the time how he's going to get the blame stuff off his lips.

WHY, OF COURSE.

"With all due deference, my boy, I really think our English custom at the telephone is better than saying "Hello!" as you do."

What do you say in England?

"We say 'Are you there?' Then, of course, if you are not there, there is no use in going on with the conversation."

Some fellows will never be able to play on a harp in the hereafter as they know nothing but chin music.

An employe in the office is papa to a nine pound girl. In the absence of cigars he passed around his pipe. Wouldn't that knock you for a row of ash cans?

Correct this sentence: It's a thrilling book, she said, but I haven't turned to the back to see how it comes out.

"How do you like your new place?" asked a housemaid of her friend.

"Too confining, too confining," replied the friend. "The old man and his wife quarrel so much that I can't get [illegible] five minutes at a time."

The man who always puts his best foot forward isn't likely to step on anyone else's toes.

Speaking about radio, we can remember when the music in the heir was broadcast from the woodshed.

The baker says, I want money, my wife kneads the dough.

MAN DON'T LIKE UNCLE SAM — PAPERS DENIED

(Continued from First Page)

blood of every American within the hearing of the man, who openly declared in a court of justice of the United States that he favored a form of government that would be subversive of the present American government.

His remarks so stirred Judge Erwin Cummins that before swearing in those who were to be admitted to citizenship, he made a most stirring appeal for patriotism on the part of these about to become citizens of the United States. He impressed upon these men, and vividly, the great privilege that was being accorded them. Judge Cummins reviewed briefly how and why this country had been started, what sacrifices had been made to make it the most liberal government on the face of the earth, and he told these men, and told them plainly, that they must appreciate these facts and live as loyal, law-abiding men. The country, he said, had no place for such men as had just been heard, who had the audacity to come into a court of justice and declare himself opposed to the government and whose kindly laws he was living. Men, the court said, had been shot or hanged for such a crime. He told these men that they were being admitted into a country where there was freedom; not freedom to go out and shoot a man, if they wanted to, but freedom to live and enjoy every privilege and protection that the great government afforded them. Every man of the large number grouped before the bar was leaning forward to catch every word of the court, and there was perfect silence. Following this talk the oath of allegiance was administered.

A Society 1,000 Years Old.

At Creil, near Paris, there is a society of archers, with an annual competition for the original trophy given at the first meet of the society, more more than a thousand years ago.

It Takes Time.

Mrs. Post—"Our son writes that he is studying psychology at college." Post—"That's some encouragement. After a while they may get around to teaching him spelling."—Life.

Prescriptions Followed.

Doctor—"Has your husband had any lucid intervals since my last visit, Mrs Jinks?" Mrs. Jinks (with dignity)—"He's had nothing except what you ordered."—London Answers.

Retirement.

It is in retirement that one feels the preciousness of genius and friendship, as one hears best in the silence of the night the sound of the sea or the song of the nightingale.

A Little Later.

At the marriage altar they take each other for better or for worse. A little later he thinks it couldn't have been worse and she thinks she might have done better.

A Double Carrier.

The Nurse—"See what the stork brought you. Two little twin sisters." Little Elsie—"My! It must have been a two-passenger stork."

Sensitive Scale.

The "grand balance" or scale used in the Bank of England is so sensitive that the weight of a postage stamp moves the index six inches.

Idleness Hard Work.

Without effort life would stagnate. To have nothing to do would indeed be hard work—"enough to kill the greatest general of us all."

Arabs Live on Dates.

The Arab, who lives largely on dates, is extraordinarily wiry and can travel for days in burning heat that would kill a meat-fed man.

Believer in Goodness.

He who believes in goodness has the essence of all faith. He is a man "of cheerful yesterdays and confident tomorrows."—J. F. Clarke.

Wow!

Mrs. Blank (visiting) — "Really, James and I meant to call long before this, but somehow we kept putting off the evil day."

No Place Like Home.

She—"I wonder why they put corn meal on the dance floor?" He—"Oh, that's to make the chickens feel at home."

Quite So.

'Tis fine to be a thorough-going egotist, then people can seldom hurt your feelings.

Doubtless.

Age has to be circumspect and sedate, when now and then it would so love to be foolish for a spell.

Cabbage and Sausages Woman's Diet

"I have doctored with the best doctors in the United States. Some said one thing and some another was ailing me and all wanted to cut me open but Mayr's Wonderful Remedy saved me, so now I eat cabbage, sausages, and anything I want to. Nothing hurts me." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. At all druggists.

MENIHAN ARCH-AID SHOES

Do the words "MENIHAN ARCH-AID" mean anything--Yet--in your Wardrobe?

IT took the women of America just so long to discover that Baking Powder was good for cooking, and that Face Powder was good for complexions—and by the same laws of logic it may take your home "just so long" to discover and know this famous shoe.

BUT once the introduction is complete—once a pair of ARCH-AIDS are allotted a place in your shoe racks—the spell will be broken, and so will the tie that binds you to tired, aching foot muscles and tired, aching style notes. MENIHAN ARCH-AID Shoes for Easter are making their first appearance on our shelves and in our windows. And this afternoon if you will come in, we promise a revelation in relief if you have suffered from pain—and a new sensation in style if you have suffered from sameness.

MENIHAN ARCH-AID SHOES

"Two feet of beauty with comfort in every yard."

MIGHTS BOOK STORE

MEMBER FEDERAL RESERVE SYSTEM

The First Consideration

in any investment is its unquestioned security. Interest return and ready convertibility, however important, should count for much less.

The First National is always glad to assist its customers and friends in the thorough-going investigation which is essential in any investment and to place at their command the advice and counsel of its experienced officers.

THE FIRST NATIONAL BANK

CHARLEROI-------PA.

In Society's Realm

The Adelphi Circle of the First Presbyterian church will hold its regular meeting this evening at the home of Mrs. Paul A. Kimmins of Washington avenue. The annual election of officers will take place, and a good attendance is especially urged.

A marriage of interest took place in the parsonage of the Methodist Episcopal church last evening at 8 o'clock with Rev. Dr. E. H. Greenlee officiating, when Miss Irene B. Griffiths, daughter of Mr. and Mrs. E. W. Griffiths, of Morgantown, W. Va., became the bride of Paul J. Cover, son of S. L. Cover of 927 McKean avenue. The bride was attired in a dark blue suit with hat to correspond and wore a corsage bouquet of roses and sweet peas. The ceremony was witnessed only by the groom's father and three sisters, Miss Glayds Cover, Mrs. Gertrude Boyd, and Mrs. Violet Lessman. Following the ceremony a wedding dinner was served at the Cover home. The bride, a senior in the Morgantown High school is one of that city's most popular young ladies, while the groom is a well-known local musician. He is employed as piano tuner for the Frederick Piano company at Morgantown and Uniontown and the Schroeder Piano company at Charleroi, and is a member of the Morgantown Symphony orchestra. The young couple will make their home in Charleroi.

SPECIAL DAY AT A LOCAL CHURCH

There will be an all-day meeting in the M. E. church, Thursday, April 10. Services will be at 10.30 a. m., 2.30 and 7.30 p. m. Rev. Bona Fleming will preach morning and afternoon.

Rev. Fleming is an evangelist of the most modern and successful type. His addresses promises to be fraught with interest and help for those who attend. A cordial invitation is extended to all.

BIG VOTE IS EXPECTED IN ILLINOIS STATE

Chicago, April 8.—(United Press)—Bright sunshine today forecast a record vote in the Illinois primaries. Thousands of men and women were lined up at the polls in Chicago even before the booths opened at six a. m.

Encouraged by the huge lead of President Coolidge over Senator Hiram Johnson in the Michigan primary, Coolidge managers were highly optimistic for a smashing victory in Illinois.

PRESIDENT LEADS SENATOR JOHNSON

Detroit, Mich. April 8—United Press)—President Coolidge's majority over Johnson steadily continues to climb as further returns maintain to the 1 to 2 ratio against the Californian in Republican presidential primary yesterday. Out of 2894 precincts the vote was 137,198 for Coolidge and 62,112 for Johnson.

TRIAL TO LEARN THAW'S CONDITION ON MONDAY

Philadelphia, April 8—(United Press)—The trial for Harry A. Thaw to determine his mental condition set for Thursday has been postponed until next Monday, it was announced here today. The reason given was that Auther G. Nixon, counsel for the trustees of the Thaw estate, will be engaged in Federal court on Thursday.

WATERS ARE HIGH AT ALBANY, N. Y.

Albany, N. Y., April 8 — (United Press).—Swollen by heavy rains and the waters from melting snows in the Adirondacks, the Mohawk and Hudson rivers were steadily rising today, and flood conditions were near.

Piers along the Hudson river front at this city were inundated and shortly after midnight police warned merchants on the waterfront that flood waters were reaching the street level.

At Schenectady the Mohawk river was overflowing its banks in places and had forced a partial suspension of work in the American Locomotive plant.

HEARING OF THE KLAN TOMORROW

Johnstown, Pa., April 8—(United Press)—President Judge John E. Evans of Cambria county, at two o'clock tomorrow afternoon at Ebensburg, the county seat, will hold a habeas corpus hearing of twenty-four members of the Ku Klux Klan, charged with riot and murder as a result of the fatal clash of citizens of Lilly and the Klan late Saturday night. Petitions on behalf of the twenty-four were prepared by Attorney Percy Allen Rose late last evening and rushed to Ebensburg in the hope that the action would secure immediate release of the prisoners, but Judge Evans refused to act without a hearing and set the time in order that all officers participating in the arrests could attend.

Two more names were added to the list of the Klansmen to face riot and murder charges late last night. Herman Koontz and Wilson Shiter, arrested in the central part of Johnstown after they had been released following the search of the special train, being the new defendants. This makes 26 klansmen accused. Two additional petitions for a writ of habeas corpus to be presented today on behalf. Four Lilly men were released from the county jail last night on joint bail of $5,000. They are charged with rioting by E. Jimcoushy, state police sergeant.

Condition of Patrick Bradley and Frank Masco, both of Lilly, was reported critical at the Altoona Hospital. Both were shot through the abdomen and the intestines perforated. Other victims of the riot are doing nicely in the several hospitals.

Get your sample can of Varnish Stain at Charleroi Paint and Glass Company during demonstration today and tomorrow. 258t2

Spring's Favorite Fashions

So many clothes have been arriving these last few days that it is easy to see now what Spring's favorites are. Some fashion facts will surprise, they are so decidely different but they will all thrill you and please because new lines, colors, fabrics have flattering ways.

New-Season

Silhouttes

IN fashion's crystal for Spring are several silhouettes, each as smart. The first is the chemise effect with shorter skirt this season. The second favors the circular, gathers its fulness in front and keeps its back quite flat. The tunic type comes to light, and the girlish bouffant—then our gazing is done.

Favor Gowns for

Tailleurs

THE more venturesome Parisian first dared the severe Tailleur. She wore it on the street and to smart luncheons, always with a trim cloche and colorful scarf. Fitted lines, squareish shoulders and mannish fabrics are charming to American women. Who can tell? May it not become almost a uniform here, as well?

Just received—a beautiful line of
Wash and Silk Blouses
$2.00 TO $15.00

ACCESSORIES

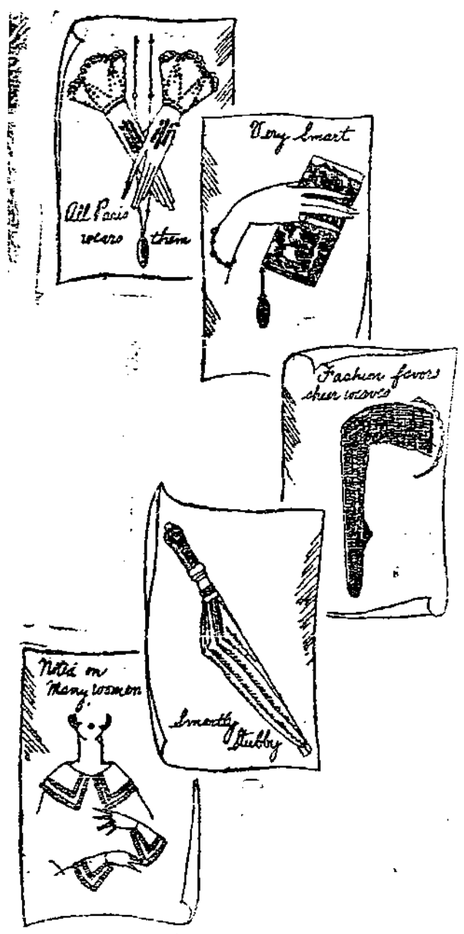
of the Moment

GLOVES pert and pretty have come for Spring, to make suit costumes more tailored, to add to the dressiness of lovely afternoon frocks, to complement fashionable wraps. There are types, both short and long, gauntlet and biarritz that will work magic in wardrobes of Spring.

HANDBAGS though small, can betray a woman's fashion ignorance or impart her knowledge of newnesses. It's the flat Bag of suede, moire or patent leather that fascinates Madame Fashion now, and mind you, she prefers it under-arm.

NECKWEAR is a first aid to the brightness and whiteness Spring clothes must have. Almost any frock idea can be carried out with Neckwear like this where there is trimness and fluffiness, demureness and piquancy interpreted in organdie, linen, lace and batiste.

HOSIERY, many, many pairs is the only way to satisfaction when there is such a host of interesting colors as for Spring, 1924. Shades for day and evening are alike delectable and the sheer weight of these most fashionable.



Spring's Very Smartest

Millinery

IT is difficult to do justice to this very lovely collection of Spring Millinery by merely saying that tricornes are new, that smartly poised ribbon bows are fashionable, that burnt goose feathers are style-approved. For these are small parts of its attractiveness. Visit and try several on. You will soon find one delightfully becoming. Street and dress models.

$2.75 to $22.50

A New Shipment of
SMART MATRON HATS
just received.

New Frocks

With Much of Fashion Interest

NOW eyes and minds turn to Cloth Dresses. They are important when avenues are sweet with Spring and one needs no wrap but a scarf. Eagerly women are listening for hints of the new. How simple it would be to visit Berryman's for a full picture of Spring's favorite fashions. One might make her selections then. She would be economizing, for everyone knows that values and the latest vogue go together here.

New Versions of Coat Dresses
Frocks with Cape Accompaniment
Plaits and Shirring Featured

WITH the weather more pleasant there's an urge to entertaining and you will find yourself inviting guests often. Smart Frocks are here for these gay afternoons. Becoming Frocks that will make you a charming hostess. In broadcloth, rosanara, fancy crepes, alpaca and printed silks.

Spring Wraps

That Flatter in a Fashionable Way

THERE is cheer for every type of woman in Spring Wrap news. Coats hang straight from the shoulder or flare outward a bit and always there is the chance to wray them nonchalantly, smartly about the figure. There are high collars, scarf collars and light fur collars. Sometimes a peasant sleeve appears and appeals because it is unusual. Fabrics are frequently kashas in radiant shades. Often one sees satin, smooth and clinging, and broadcloth that is rich. Such attractive wraps will be pleasant to wear.

The Smart Three Quarter Coat
Wraps of Pencil Slimness

Suits

Have Numerous New Ideas

EVERY good reason for choosing a Suit this Spring. If you motor a good deal or indulge in Sports, there is many a clever outfit you would find comfort in—perhaps a very simple Suit of camel's hair, or a boxy covert. If you can wear the severe, there are new tailleurs that will interest you. Fashion smiles on Suits of many types this Spring and they are all represented here.

The market's newest things at a special price. Wait for Yorkin's sale. 259t2

Eugenics.

Eugenics is from a Greek word meaning well born, and was first used by Francis Galton, the noted English scientist, in 1883, who defined it as "the science which deals with all influences that improve the inborn qualities of a race."

Severe Penalty.

The penalty among the Hottentots for widows who marry again is a somewhat severe one. It is the rule among these people that before so marrying, a widow must cut off the joint of a finger and present it to her new husband on the wedding day.

Beware Zinc Poisoning.

Food should not be allowed to stand for even a short time in a galvanized iron bucket as some of the zinc coating on the bucket may be dissolved and zinc poisoning result from eating the food.

Hollanders Like Cake.

In no other country do cakes play such an important part in the daily diet of the people of all classes as in Holland, where they seem to have an infinite variety and special kinds for every occasion.

Indians Fear Twins.

Twins are usually regarded as uncanny and are rather feared as possessing occult power. Among some Oregon and other coast tribes they were once regarded as abnormal and one or both were killed.

It's a Fact.

Notwithstanding the belief that ignorance is too prevalent, many people know a great deal more than they ought to about their neighbors' affairs.
